

15th September 2023

Dear Parent/Carer,

Jeans for Genes Day is the annual fundraising campaign for Genetic Disorders UK, the national charity that supports individuals and families affected by genetic disorders, including cystic fibrosis.

Jeans for Genes Day 2023 is on Friday 22nd September and we invite all students to wear their jeans in support and donate £1.00.

Donations can be made easily in the Payments section of the School Gateway App *from* Monday 18th September.

Alternatively, you can donate online at the official Just Giving Page [HERE](#) or send cash in with your child on the day.

We appreciate that some children do not like the feel of denim so wearing jeans is not compulsory but please ensure that your child is dressed appropriately for the school day.

Yours sincerely
